3 Tong Tak Street, Tseung Kwan O, Hong Kong

INTRODUCTION

Nowadays, technology is disrupting many areas of our lives, so it's no surprise that it is also playing a significant role in our environmental protection. Many emerging technologies can be adopted to drive environmental innovation so as to tackle different environmental challenges. Indeed, environmental innovation can also bring in a sustainable green economy with immense business opportunities.

As one of the most developed cities in the world, Hong Kong is planned to develop into a world-class smart city. According to the Government's Smart City Blueprint, "smart environment" is one of the 6 major areas in which innovation and technology will be embraced for a smart Hong Kong. Therefore, it is timely for HKIE Environmental Division to promote the discussion on how environmental innovation can be encouraged in Hong Kong. This forum would bring together various stakeholders including government, academics, research institutions, entrepreneurs and environmental startups to explore the opportunities and challenges in promoting environmental innovations in Hong Kong.

The forum comprises the keynote session and three other sessions: I) Overseas Experiences in Driving Environmental Innovation; II) Business Opportunities from Environmental Innovations; and III) Pitching of Environmental Technology Companies.

ORGANIZING COMMITTEE

Chairman

Ir Dr MA, Anthony

Members

Ir CHENG, Norman

Ir CHAN, Thomas

Ir CHAN, Mannix

Ir CHOI, Chung Ming

Ir IP, Tat Yan

Mr LAM, Benjamin

Ir LAM, Chi Sing

Ir LEE, Ping Kuen
