# The Prospective Development of Carbon Trade in Greater China

**Event date:** 30 Oct, 2012(Tue)

**Time:** 14:00-16:30

**Registration time:** 13:30-14:00

**Venue:** Seminar Room, Hall 6, Asia-WorldExpo,  
Chek Lap Kok Airport, Hong Kong

**Language :** Mandarin

**Fee :** Free of charge

## Introduction:

Tackling with climate change is widely acknowledged as one of the biggest challenges of this century. No one can escape from the negative effects of emissions of greenhouse gasses from industrial activities, the burning of fossil fuels and biomass. To constrain global greenhouse gas emissions, countries or companies can purchase Carbon Credits through special markets where these emission reductions are traded.

With the freedom of capital flow and the status of RMB offshore settlement center, Hong Kong as one of the world's most open and dynamic economies for Greater China, has the unique advantages in the regional carbon emission exchange market.

## The objectives for the forum:

To Guide and assist enterprises & companies in Greater China to reduce their carbon emissions and increase their competitiveness;

To provide information on Carbon trading to local enterprises in Greater China and the public;

To announce Market & operation research and identify key regional Carbon Exchanges with optimum growth patterns for Carbon Exchanges in Greater China; and

To provide the foundation for Hong Kong as the hub for regional Carbon Exchanges in Greater China

If you are interested in this event, please register via the online registration form or fax back the attached reply slip to us via 3019 7415. Should you have any enquiries, please do not hesitate to contact Miss. Hui by phone at 2810 1777 or by email at pinky.hui@starsf.tv
